## The MTI Japan 2010

Mass-Trans Innovation Japan 2010, the first exhibition focusing on railway technologies in Japan, had been hold from November 10 to 12 in the Makuhari Messe in Chiba Prefecture. It was a great success having 212 groups and corporations of exhibitors, and 14,529 visitors through the 3 days.

We ran a booth at the MTI Japan exhibiting 12 products of 9 manufacturers, and we sincerely appreciate having many people visited.

In the following, we show some pictures from the exhibition.
